

Dear [*Contact Name*],

My name is [*Student Name*], and I am a member of *FIRST* Robotics Team 4256, The Cyborg Cats. The *FIRST* Competition League is an incredible opportunity to learn about STEM hands-on, however in our experience we have found that students with disabilities are consistently excluded from this opportunity.

Our team is trying to change this by creating opportunities for people with disabilities to learn more about STEM. We would love to visit [*School Name*] and put on a demonstration with one of our robots for your students. This would give the chance for your students to be introduced to the world of STEM and *FIRST* robotics and participate in a fun, interactive learning experience.

Please let me know if you are interested in this opportunity, or if you have any questions. We look forward to hearing from you!

Thank you,

[*Student Name*]
